DIGITAL
2023

Congress for Digitalisation in
Orthopaedics & Traumatology

HYBRID

24. — 25.11.2023

Berlin, Germany

www.OTdigital.eu

Where?

Live in **Berlin, Germany**, or streamed at www.OTdigital.eu

When?

24. – 25.11.2023

What is our goal?

As European hybrid congress, OTdigital engages the medical and scientific community in an international and interdisciplinary exchange on trends, opportunities and controversies in digitalisation in orthopaedics and traumatology from a medical, scientific and economic perspective.

What will we offer to our participants?

Like in 2022, together with an international faculty of chosen experts we will offer an interesting mix of

- **keynotes**
- **panel discussions**
- interactive **focus sessions:**

mHealth, Apps
& Wearables

AI & Big Data

Training and
education in
mixed realities

Telemedicine
and digital
communication

Digital OR &
smart implants

- **a poster session** for young scientists (poster award)
- **a startup pitch session** for innovative start-ups in O&T (pitch award)

New in 2023:

- **Breakout sessions** for the in-depth discussion of topics of interests
- **hands-on workshops**, for practical experiences of new digital solutions for training, rehab or OR
