# Shoulder Surgery 2025

Emerging Technologies in  
Arthroscopy, Fracture Care  
and Arthroplasty

**BERLIN**  
International Shoulder Course  
**2025** | **APRIL 23 – 26**  
**BERLIN, GERMANY**

# INVITATION

## Shoulder Surgery 2025 – Emerging Technologies in Arthroscopy, Fracture Care and Arthroplasty

Dear Sponsors and Supporters,

during the last 25 years the world of shoulder surgery has been influenced by a tremendous amount of new technologies, implant developments and advanced surgical interventions. This trend is still on-going and in a fast-changing world of transient ideas it is time to reflect which of those innovations have been most impactful and helped us to improve patients outcome, increase patient safety and be more cost-effective.

A robust understanding of each technology, implant design and surgical procedure including the potential impact in addressing a true clinical problem should be the major goal during Berlin International Shoulder Course (BISC) 2025.

Leading experts from all over the globe will contribute with their expertise and will illustrate how to achieve the best possible treatment outcome for our patients.

Video demonstrations, live surgeries, mini-battles and debates will complement the scientific lectures. Practical skills can be improved and enhanced in ultrasound and cadaver workshops.

Our meeting will again take place in one of the most attractive locations in the heart of Berlin, between Kurfuerstendamm and Potsdamer Platz. The InterContinental reflects the dynamics of the German capital and unites tradition and modernity. Its outstanding meeting facilities guarantee professionalism in a familial atmosphere.

We are looking forward to welcome you to the Berlin International Shoulder Course from April 23th–26th 2025.

Prof. Markus Scheibel

# PROGRAM

Scientific Lectures, Invited Special Guest Lectures, Mini Battles,  
Video Demonstrations, Live Surgeries, Lunch Symposia,  
Ultrasound Workshops, Cadaver Workshop

## Schedule

### Day 1 | Wednesday, April 23, 2025
