stryker

We share your focus

Just like you, Stryker is focused on

the complete spectrum of shoulder care

Contact your local representative for more Information.

This document is intended solely for the use of healthcare professionals. A surgeon must always rely on his or her own professional clinical judgement when deciding whether to use a particular product when treating a particular patient. Stryker does not dispense medical advice and recommends that surgeons be trained in the use of any particular product before using it in surgery. The information presented is intended to demonstrate the breadth of Stryker product offerings. A surgeon must always refer to the package insert, product label and/or instructions for use before using any Stryker product. Products may not be available in all markets because product availability is subject to the regulatory and/ or medical practices in individual markets. Please contact your Stryker representative if you have questions about the availability of Stryker products in your area. Stryker Corporation or its divisions or other corporate affiliated entities own, use or have applied for the following trademarks or service marks: Aequalis, AlphaVent, Blueprint ICONIX, ICONIX SPEED, InSpace, Knotilus, Omega, Perform, Tornier, Stryker. All other trademarks are trademarks of their respective owners or holders.

WELCOME REMARKS

Dear Colleagues and Friends,

Despite remarkable advances in shoulder diagnostics, surgical techniques, implant technology, and rehabilitation, many fundamental challenges in shoulder surgery remain unresolved. Even when anatomical or extra-anatomical reconstruction is technically achievable, fundamental questions often remain unanswered. What are the appropriate indications and treatment strategies? How should we approach failed previous surgery and complex revision situations? What can realistically be restored, and which factors determine a predictable and durable functional outcome? These uncertainties continue to challenge even the most experienced shoulder specialists.

The Berlin International Shoulder Course 2027 is dedicated to these complex, controversial, and still unsolved problems of the shoulder.

From March 31 to April 3, 2027, we will bring together renowned experts and colleagues from around the world to openly discuss challenging cases, critically examine established concepts, and explore new approaches. Live surgery, video demonstrations, interactive discussions, and practical workshops will complement the scientific programme, providing opportunities to translate knowledge directly into clinical practice.

To further enhance the educational experience, we are pleased to offer dedicated pre- and post-course programmes. The Pre-Course will focus on shoulder arthroplasty and follow our well-established rotational format, allowing participants to move between different stations and gain focused, hands-on experience with implants, surgical techniques, and practical solutions in shoulder replacement surgery.

The Post-Course will address the challenging field of proximal humeral fracture care, offering participants the opportunity to deepen their knowledge of current treatment concepts and, with an additional hands-on option, gain practical experience in fracture management and reconstruction.

We look forward to welcoming you to an inspiring and collegial meeting, where challenging cases, different perspectives, and shared experience will be at the centre of our discussions.

We look forward to seeing you in Berlin from March 31 to April 3, 2027!

Univ.-Prof. Dr. med. Markus Scheibel

PROGRAM SCHEDULE WEDNESDAY

All information valid at the time of printing.

14:00 - 15:00	REGISTRATION
15:00 - 16:05	PRE-COURSE - LECTURES
16:05 - 16:30	COFFEE BREAK AND EXHIBITION
16:30 - 18:30	PRE-COURSE - ROTATIONS

PROGRAM SCHEDULE THURSDAY

All information valid at the time of printing.

REGISTRATION	07:00 - 07:45
WELCOME	07:45 - 08:00
KEYNOTE Unsolved Problems in Rotator Cuff Surgery – Persistent Challenges Despite Decades of Research	08:00 - 09:00
INVITED SPECIAL GUEST LECTURE	09:00 - 09:15
LIVE SURGERY Rotator Cuff Repair with Biceps Tendon Patch Augmentation	09:15 - 10:00
COFFEE BREAK AND EXHIBITION	10:00 - 10:30
KEYNOTE Beyond the Shoulder: The Problems We Tend to Ignore	10:30 - 11:00
SURGICAL TECHNIQUE VIDEOS AND ROUND TABLE DISCUSSION How I Try to Improve Functional and Structural Results of Direct Repairs?	11:00 - 12:00
COFFEE BREAK AND EXHIBITION	12:00 - 13:30
LUNCH SYMPOSIA	12:15 - 13:15
INTERACTIVE MINI-BATTLE: CONTROVERSIAL TOPICS - AUDIENCE PLEASE VOTE! Optimizing Tendon to Bone Healing	13:30 - 14:30
RE-LIVE SURGERY Tendon Seam™ – Rethinking Tendon-to-Bone Fixation in Rotator Cuff Repair Combined with Biological Augmentation	14:30 - 14:45
LIVE SURGERY Primary Reverse MIO-RSA Shoulder Arthroplasty	14:45 - 15:30
COFFEE BREAK AND EXHIBITION	15:30 - 16:00
KEYNOTE PRESENTATIONS AND SURGICAL TECHNIQUE VIDEO Massive Irreparable Posterosuperior Rotator Cuff Tears – From Non-Operative Treatment to Complex Reconstruction Techniques	16:00 - 17:15
LIVE SURGERY Mako Robotic-Assisted Reverse Shoulder Arthroplasty for Cuff Tear Arthropathy	17:15 - 18:00
CHARITÉ LECTURE	18:00 - 18:20
KEYNOTE Reverse Shoulder Arthroplasty for Massive Rotator Cuff Tears and Cuff Tear Arthropathy – How Do We Optimize Outcome?	18:20 - 19:30
END OF FIRST DAY AND WELCOME RECEPTION	19:30 - 20:30

PROGRAM SCHEDULE FRIDAY

All information valid at the time of printing.

07:00 - 08:00	**EARLY-BIRD SESSION – DON´T MISS!** ScapuloThoracic Abnormal Motion (STAM) – Diagnosis and Management
08:00 - 08:15	**INVITED SPECIAL GUEST LECTURE**
08:15 - 08:30	**RE-LIVE SURGERY** Arthroscopic Bankart Repair and Remplissage – My Technique
08:30 - 09:30	**KEYNOTE** Unsolved Problems in Shoulder Instability Surgery – Where Does the Evidence Fall Short?
09:30 - 10:00	COFFEE BREAK AND EXHIBITION
10:00 - 11:00	**SURGICAL TECHNIQUE VIDEOS AND ROUND TABLE DISCUSSION** Innovative Techniques for the Treatment of Anterior Shoulder Instability
11:00 - 12:00	**KEYNOTE** The Complicated Unstable Shoulder – Making the Right Decision
12:00 - 13:30	COFFEE BREAK AND EXHIBITION
12:15 - 13:15	LUNCH SYMPOSIA
13:30 - 14:30	**INTERACTIVE MINI-BATTLE: CONTROVERSIAL TOPICS - AUDIENCE PLEASE VOTE!** Posterior shoulder instability in 2027
14:30 - 14:50	**RE-LIVE SURGERY** ROSA assisted Reverse Shoulder Arthroplasty
14:50 - 15:20	**KEYNOTE** Unsolved Problems in Treatment of AC-Joint Injuries
15:20 - 16:00	COFFEE BREAK AND EXHIBITION
16:00 - 17:45	**KEYNOTE** Unsolved Problems in Treatment of Complex Fractures Around the Shoulder
17:45 - 18:15	SURPRISE SESSION – SHOULDER SURGEONS UNPLUGGED
18:15 - 18:16	END OF SECOND DAY

PROGRAM SCHEDULE SATURDAY

All information valid at the time of printing.

INVITED SPECIAL GUEST LECTURE	07:30 - 07:45
HOST LECTURE	07:45 - 08:00
KEYNOTE Unsolved Problems in Anatomic Shoulder Arthroplasty – Current Challenges and Future Solutions	08:00 - 08:30
SURGICAL TECHNIQUE VIDEOS AND ROUND TABLE DISCUSSION Subscapularis Sparing Shoulder Arthroplasty	08:30 - 09:00
RE-LIVE SURGERY, SURGICAL TECHNIQUE VIDEOS AND ROUNDTABLE DISCUSSION Alternative Solutions for Non-Reverse Arthroplasty in Osteoarthritis With an Intact Rotator Cuff	09:00 - 09:30
COFFEE BREAK AND EXHIBITION	09:30 - 11:00
ULTRASOUND WORKSHOP	09:45 - 10:45
BRUNCH SYMPOSIA	09:45 - 10:45
KEYNOTE Unsolved Problems in Reverse Shoulder Arthroplasty – Where Do We Go from Here?	11:00 - 12:00
KEYNOTE Innovations and Latest Digital Technologies in Shoulder Arthroplasty	12:00 - 13:00
KEYNOTE How to Manage Complications in Shoulder Arthroplasty in 2027	13:00 - 14:00
END OF MEETING	14:00 - 14:01
POST-COURSE - LECTURES	14:30 - 15:35
POST-COURSE - ROTATIONS	15:35 - 17:30

PRE-COURSE
MARCH 31,2027

14:00 - 15:00 REGISTRATION

PROGRAM
Wednesday March 31, 2027

15:00 - 16:05 PRE-COURSE - LECTURES

BELLEVUE

Jost | Levine | Scheibel

15:00	Introduction	Scheibel
15:05	From plan to precision – integrating planning and AR navigation in shoulder arthroplasty	Collin
15:20	RSA through digital experience – mastering clinical challenges	Gouci
15:35	Rosa robotic-assisted shoulder arthroplasty	Kassam
15:50	The shoulder showdown – BIO-RSA vs MIO-RSA	Neyton Scheibel

16:05 - 16:30 COFFEE BREAK AND EXHIBITION

16:30 - 18:30 PRE-COURSE - ROTATIONS

BELLEVUE

16:30	Rotation 1
16:55	Changeover break
17:00	Rotation 2
17:25	Changeover break
17:30	Rotation 3
17:55	Changeover break
18:00	Rotation 4

THURSDAY APRIL 1, 2027

07:00 - 07:45 REGISTRATION

07:45 - 08:00 WELCOME

Scheibel

07:45 Why are we here?

PROGRAM
Thursday April 1, 2027

08:00 - 09:00 KEYNOTE

PAVILLON

Unsolved Problems in Rotator Cuff Surgery – Persistent Challenges Despite Decades of Research

Athwal | Scheibel

08:00	Indication for repair – Are we clear in 2027? What does the evidence say?	*Jenssen*
08:08	Scar, not enthesis – The biological reality of cuff repair	*Gumina*
08:16	Why do some of our repairs heal while others still fail?	*Calvo*
08:24	Failure in continuity – What is it and should we be concerned?	*Ricchetti*
08:32	How tear pattern influences retear rates?	*Shin*
08:40	The degenerated muscle – Is fatty infiltration irreversible?	*Gerber*
08:48	Two decades of rotator cuff repair research – A personal perspective	*Scheibel*
08:56	Discussion	

Session 2
09:00 - 09:15 INVITED SPECIAL GUEST LECTURE

PAVILLON

Scheibel

09:00	Understanding rotator cuff healing: Measurement, outcomes and risk factors	*Iannotti*

Session 3
09:15 - 10:00

LIVE SURGERY

PAVILLON

Rotator Cuff Repair with Biceps Tendon Patch Augmentation

Gerber | Smith

Case presentation — *Högl*

Surgeon — *Tokish*

10:00 - 10:30

COFFEE BREAK AND EXHIBITION

Session 4
10:30 - 11:00

KEYNOTE

PAVILLON

Beyond the Shoulder: The Problems We Tend to Ignore

De Campos Azevedo | Mihata

10:30	Beyond the incision – Optimizing wound care after shoulder surgery	*Kassam*
10:35	Pillow talk – The secret to better sleep after shoulder surgery	*Mirzayan*
10:40	Relieve shoulder pain day and night with a all-in-one cushion	*Barth*
10:45	A pain we choose – Finger lacerations among shoulder suergons	*Scheibel*
10:50	Five things I would change if I could!	*Jost*

Session 5
11:00 - 12:00

SURGICAL TECHNIQUE VIDEOS AND ROUND TABLE DISCUSSION

PAVILLON

How I Try to Improve Functional and Structural Results of Direct Repairs?

Calvo | Góralczyk

11:00	Arthroscopic repair of articular side supraspinatus tear	*Dey Hazra*
11:05	The shoe shop lacing knotless cuff repair technique	*Neyton*
11:10	Arthroscopic repairs of delaminated cuff tears	*Moroder*
11:15	Beyond anchors – arthroscopic transosseous cuff repair	*Ockert*
11:20	Biceps augmentation for repairing the difficult cuff	*Lubiatowski*
11:25	Dermal patch in recurrent cuff tears – Pillow patch technique	*Paladini*
11:30	Triceps patch augmentation for revision rotator cuff repair	*Greiner*
11:35	Subscapularis tears – Hidden and forgotten no more	*Sanchez-Sotelo*
11:40	Muscle advancement and medialization for retracted cuff tears	*Sugaya*
11:45	Round table discussion	

12:00 - 13:30

COFFEE BREAK AND EXHIBITION

12:15 - 13:15

LUNCH SYMPOSIA

PROGRAM
Thursday April 1, 2027

Session 6
13:30 - 14:30

INTERACTIVE MINI-BATTLE: CONTROVERSIAL TOPICS - AUDIENCE PLEASE VOTE!

PAVILLON

Optimizing Tendon to Bone Healing

Hartzler | Paladini

Boosting biology – What really makes the difference?

13:30	Feed the repair – Nutrition is the key	*Kassam*
13:35	Better healing through drugs – Pharmacology is the answer	*Schanda*
13:40	Stem cells – The future of healing is here	*Münch*
13:45	Discussion and now please vote!	

Patchwork in rotator cuff repair – Mechanical support or biological boost?

13:50	Strength first – The case for synthetic patch augmentation	*Wieser*
13:55	Bioinductive implants are the future	*Ruiz Ibán*
14:00	Use what you have – Local tissue reinforcement works	*Endell*
14:05	Discussion and now please vote!	

Irreparable anterosuperior rotator cuff tears: Rethinking tendon transfers

14:10	Keep it simple – Isolated latissimus dorsi transfer	*Valenti*
14:15	Double the power – Latissimus dorsi and teres major transfer	*Baek*
14:20	Keep the vector – Transscapular lower trapezius transfer	*Lafosse*
14:25	Discussion and now please vote!	

Session 7
14:30 - 14:45

RE-LIVE SURGERY

PAVILLON

Tendon Seam™ – Rethinking Tendon-to-Bone Fixation in Rotator Cuff Repair Combined with Biological Augmentation

Calvo | Lafosse

Surgeon *O'Brien*

Session 8
14:45 - 15:30

LIVE SURGERY

PAVILLON

Primary Reverse MIO-RSA Shoulder Arthroplasty

Barco | Sanchez-Sotelo

Case presentation *Shaheen*

Surgeon *Scheibel*

15:30 - 16:00

COFFEE BREAK AND EXHIBITION

Session 9
16:00 - 17:15

KEYNOTE PRESENTATIONS AND SURGICAL TECHNIQUE VIDEO

PAVILLON

Massive Irreparable Posterosuperior Rotator Cuff Tears – From Non-Operative Treatment to Complex Reconstruction Techniques

O'Brien | Yoo

16:00	Don't operate patients with a massive cuff tear and a popeye sign	*Boileau*
16:08	Why do we need to put biology on the greater tuberosity?	*Mirzayan*
16:16	When is a partial repair indicated? Technique and results	*Athwal*
16:24	Superior capsular and anterior cable reconstruction	*Hartzler*
16:32	Arthroscopic superior capsule reconstruction – Long-term outcomes and keys to surgical success	*Mihata*
16:40	How and when to decide between latissimus dorsi and lower trapezius?	*Lafosse*
16:48	What is a clear indication for RSA? Situations where I don't discuss!	*Valenti*
16:56	Challenging surgery in the functional shoulder with massive cuff tear	*Castagna*
17:04	Video-Demo: Identity shoulder – Specifics in reverse arthroplasty for CTA	*Levine*
17:12	Discussion	

PROGRAM
Thursday April 1, 2027

Session 10
17:15 - 18:00

LIVE SURGERY

PAVILLON

Mako Robotic-Assisted Reverse Shoulder Arthroplasty for Cuff Tear Arthropathy

Athwal | Delaney

Case presentation — *Högl*

Surgeon — *Amini*

Session 11
18:00 - 18:20

CHARITÉ LECTURE

PAVILLON

Scheibel

18:00	Inside Charité – Insights from Europe's largest university hospital	*Kroemer*

PROGRAM
Thursday April 1, 2027

Session 12
18:20 - 19:30

KEYNOTE

PAVILLON

Reverse Shoulder Arthroplasty for Massive Rotator Cuff Tears and Cuff Tear Arthropathy – How Do We Optimize Outcome?

Levine | Scheibel

18:20	Genderspecific factors in decision-making	*Kraus-Spieckermann*
18:28	Perioperative management – How to achieve the best possible outcome?	*Treskatsch*
18:36	Design matters – Optimizing RSA configuration for cuff tear arthropathy	*Shin*
18:44	MIO vs BIO-RSA for cuff tear arthropathy – Does it make a difference?	*Porcellini*
18:52	Digital dynamic radiography – Unmasking the mechanics of RSA	*Scheibel*
19:00	Combined loss of elevation and external rotation (CLEER) – Which strategy?	*Freislederer*
19:08	Return to sports after RSA – What, when and how well?	*Jawa*
19:16	Discussion	

19:30 - 20:30

END OF FIRST DAY AND WELCOME RECEPTION

FRIDAY
APRIL 2,2027

Session 1
07:00 - 08:00

EARLY-BIRD SESSION – DON´T MISS!

PAVILLON

ScapuloThoracic Abnormal Motion (STAM) – Diagnosis and Management

Demirhan | Elhassan

07:00	Anatomy and evaluation of the scapulothoracic articulation	*Elhassan*
07:08	What about structural STAM	*Hachem*
07:16	Management of isolated serratus and trapezius paralysis	*Werthel*
07:24	Management of combined muscle paralysis	*Demirhan*
07:32	My perspective on functional STAM	*Elhassan*
07:40	The unusual case: Have you seen it?	*Scheibel*
07:48	Discussion	

Session 2
08:00 - 08:15

INVITED SPECIAL GUEST LECTURE

PAVILLON

Scheibel

08:00	How to improve arthroscopic Bankart repair in anterior shoulder instability	*Yoo*

Session 3
08:15 - 08:30

RE-LIVE SURGERY

PAVILLON

Arthroscopic Bankart Repair and Remplissage – My Technique

Collin | Sugaya

Surgeon *Scheibel*

Session 4
08:30 - 09:30

KEYNOTE

PAVILLON

Unsolved Problems in Shoulder Instability Surgery – Where Does the Evidence Fall Short?

Valenti | Wieser

08:30	Anterior shoulder instability in adolescents – What makes it different?	*Karpinska*
08:38	Automatic measurement of bone loss – Any progress?	*Athwal*
08:46	Anterior glenoid rim defects – Are we talking about the same?	*Böhm*
08:54	Anterior instability is more complex – Coracoid orientation matters!	*Zumstein*
09:02	Dynamic anterior stabilization – For everyone?	*Collin*
09:10	Bankart Repair and Remplissage vs Latarjet in > 15% bone loss	*Elsayed*
09:18	Bony Bankart – Remodelling of the glenoid and no need for bony augmentation	*Sugaya*

PROGRAM
Friday April 2, 2027

09:30 - 10:00

COFFEE BREAK AND EXHIBITION

Session 5
10:00 - 11:00

SURGICAL TECHNIQUE VIDEOS AND ROUND TABLE DISCUSSION

PAVILLON

Innovative Techniques for the Treatment of Anterior Shoulder Instability

Favorito | Jiang

10:00	Tensionable knotless Bankart repair and remplissage using soft-anchors	*Lorbach*
10:05	DAS onlay fixation technique	*De Compos Azevedo*
10:10	Bony allograft Latarjet screw fixation	*Wieser*
10:15	Flipped Latarjet – Why I switched from arthroscopy to open – plus screws!	*Raiss*
10:20	Arthroscopic Flipped Latarjet with button fixation works!	*Patzer*
10:25	Planning and Guidance – Technology for Latarjet	*Lädermann*
10:30	Free bone block is still my treatment of choice	
10:35	Distal tibia allograft cerclage tape fixation – Union and remodeling	*Hachem*
10:40	Multifragmented glenoid rim fractures – Anatomic repair technique	*Scheibel*
10:45	Round Table Discussion	

Session 6
11:00 - 12:00

KEYNOTE

PAVILLON

The Complicated Unstable Shoulder – Making the Right Decision

Castagna | Hachem

11:00	Failure after anterior instability surgery – A multicenter cohort study	*Werthel*
11:08	Complex shoulder instability – Dealing with large humeral bone loss	*Miniaci*
11:16	Strategies for bone loss in seizure patients	*Garofalo*
11:24	Management of axillary nerve palsy after glenohumeral dislocation	*Lafosse*
11:32	Subscapularis insufficiency after open instability repair surgery	*Verborgt*
11:40	Massive rotator cuff tears and dynamic shoulder instability	*Valenti*
11:48	Brain matters in shoulder instability – Is it modifyable?	*Lubiatowski*
11:56	Discussion	

12:00 - 13:30

COFFEE BREAK AND EXHIBITION

12:15 - 13:15

LUNCH SYMPOSIA

Session 7
13:30 - 14:30

INTERACTIVE MINI-BATTLE: CONTROVERSIAL TOPICS - AUDIENCE PLEASE VOTE!

PAVILLON

Posterior shoulder instability in 2027

Moroder | Zumstein

13:30	Overview – Understanding dynamic and static posterior shoulder instability	*Gerber*
13:40	Keep it simple – I still do a posterior Bankart	*Tokish*
13:45	Bring in the bone – Posterior bone block is the answer	*Boileau*
13:50	Go EPIC – The only way to go!	*Domos*
13:55	Why make it complicated? Scapinelli is easy and safe	*Hochreiter*
14:00	It is the anatomy – Scope is the solution!	*Werthel*
14:05	HOPE over SCOPE!	*Akgün*
14:10	No surgical intervention has worked long term – I wait and do arthroplasty!	*Brunner*
14:15	Discussion and now please vote!	

Session 8
14:30 - 14:50

RE-LIVE SURGERY

PAVILLON

ROSA assisted Reverse Shoulder Arthroplasty

Levine | Verborgt

Surgeon *Kassam*

Session 9
14:50 - 15:20

KEYNOTE

PAVILLON

Unsolved Problems in Treatment of AC-Joint Injuries

Barth | Kraus-Spieckermann

14:50	How I decide for non-operative vs operative treatment?	*Zumstein*
14:58	Should we operate on Rockwood type five injuries immediatly or wait?	*Siebenlist*
15:06	New surgical techniques on the German horizon – The Autobahn technique	*Scheibel*

15:20 - 16:00

COFFEE BREAK AND EXHIBITION

Session 10
16:00 - 17:45

KEYNOTE

PAVILLON

Unsolved Problems in Treatment of Complex Fractures Around the Shoulder

Brunner | Gumina

16:00	Let´s start with a very simple question – Who needs surgery?	*Brorson*
16:08	Digital dynamic radiography for proximal humeral fractures – First experiences	*Schubring*
16:16	My journey of intramedullary nailing	*Boileau*
16:24	Plating proximal humerus fractures – Is it really a bad idea?	*Lech*
16:32	Long-term results of ORIF for non-osteoporotic complex fractures	*Jiang*
16:40	How I manage orthogeriatric proximal humeral fractures	*Kralinger*
16:48	The art of reduction and retention	*Scheibel*
16:56	Failed fixation – Fix it again or replace it?	*Spross*
17:04	Fracture sequelae – What is the role of arthrolysis and plate removal?	*Paladini*
17:12	Humeral head replacement – Does head material and stem length matters?	*Kazum*
17:20	Reverse shoulder arthroplasty – Have we gone too far?	*Malhas*
17:28	Displaced lateral clavicle fractures – Minimial invasive beats ORIF	*Kraus-Spieckermann*
17:36	Scapular fracture fixation and its impact on future arthroplasty	*Choo*

PROGRAM
Friday April 2, 2027

17:45 - 18:15

SURPRISE SESSION – SHOULDER SURGEONS UNPLUGGED

PAVILLON

Stay tuned!

18:15 - 18:16

END OF SECOND DAY

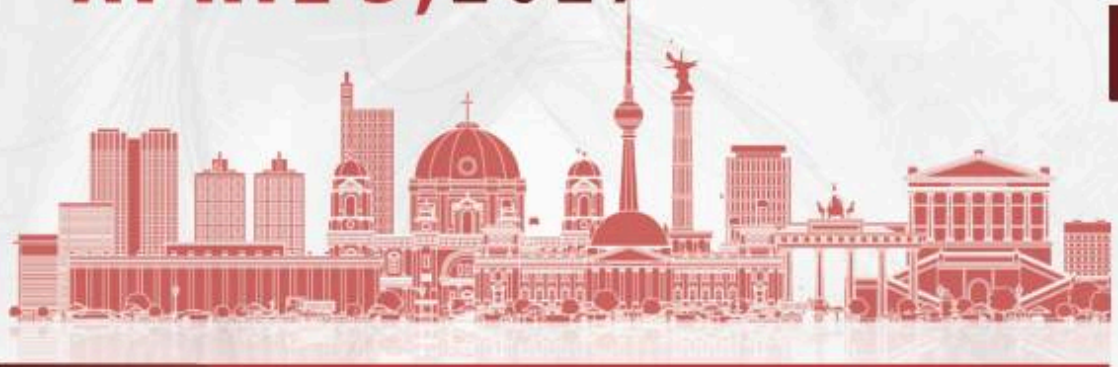

SATURDAY
APRIL 3,2027

Session 1
07:30 - 07:45

INVITED SPECIAL GUEST LECTURE

PAVILLON

Scheibel

07:30 From instability to arthropathy – What an advanced in-vitro cadaveric shoulder simulator has taught us? *Raniga*

PROGRAM
Saturday April 3, 2027

Session 2
07:45 - 08:00

HOST LECTURE

PAVILLON

Mirzayan | Werthel

07:45 Shoulder cartilage injury treatment – Successes and failures *Scheibel*

Session 3
08:00 - 08:30

KEYNOTE

PAVILLON

Unsolved Problems in Anatomic Shoulder Arthroplasty – Current Challenges and Future Solutions

Boileau | Jawa

08:00 How to achieve the perfect head cut and excellent glenoid exposure? *Delaney*

08:08 Rotator cuff insufficiency after ATSA – How to avoid and how to treat? *Levine*

08:16 The fate of the glenoid component after anatomical total shoulder arthroplasty *Iannotti*

08:24 Discussion

Session 4
08:30 - 09:00

SURGICAL TECHNIQUE VIDEOS AND ROUND TABLE DISCUSSION

PAVILLON

Subscapularis Sparing Shoulder Arthroplasty

Neyton | Ricchetti

08:30	My technique for anatomical total shoulder arthroplasty	*Favorito*
08:35	My technique for saving the subscapularis but balancing the RSA	*Gauci*
08:40	My technique for cuff-intact osteoarthritis using RSA	*Hartzler*
08:45	My technique for RSA using the Frankle design	*Collin*
08:50	My technique for RSA including bone-grafting	*Smith*
08:55	Round Table Discussion	

Session 5
09:00 - 09:30

RE-LIVE SURGERY, SURGICAL TECHNIQUE VIDEOS AND ROUNDTABLE DISCUSSION

PAVILLON

Alternative Solutions for Non-Reverse Arthroplasty in Osteoarthritis With an Intact Rotator Cuff

Lädermann | Lech

09:00	**Re-Live Surgery - A novel concept in anatomical shoulder arthoplasty: Mirror**	*Zumstein*
09:15	Stemless humeral replacement and augmented glenoid	*Raiss*
09:20	Non-spherical humeral head and inlay glenoid	*Miniaci*
09:25	No need for an artificial glenoid – Pyrocarbon Hemi has stood the test of time	*Boileau*

09:30 - 11:00

COFFEE BREAK AND EXHIBITION

Session 6
09:45 - 10:45

ULTRASOUND WORKSHOP

BELLEVUE

Böhm | Böhm | Dey Hazra | Seker

09:45 - 10:45

BRUNCH SYMPOSIA

TEGEL

Session 7
11:00 - 12:00

KEYNOTE

PAVILLON

Unsolved Problems in Reverse Shoulder Arthroplasty – Where Do We Go from Here?

Iannotti | Porcellini

11:00	Posture specific planning in shoulder arthroplasty	*Moroder*
11:08	Scapular posture driven biomechanics: Learnings from an advanced in vitro cadaveric shoulder simulator	*Raniga*
11:16	Complications begin in the operating room – The role of intra-op inflammation	*Lazaridou*
11:24	Soft-tissue tensioning on the humeral side	*Verborgt*
11:32	Systemic coracoidectomy in RSA improves outcome without adverse effects	*Lafosse*
11:40	Prediction of acromial and scapular spine fractures using machine learning	*Schneller*
11:48	Stress fractures after RSA (CTA vs OA) – What is the best treatment?	*Jawa*
11:56	Discussion	

Session 8
12:00 - 13:00

KEYNOTE

PAVILLON

Innovations and Latest Digital Technologies in Shoulder Arthroplasty

Bale | Schoch

12:00	Reading between the voxels: Radiomics in shoulder arthroplasty	*Routman*
12:08	PSI – Cost-effectiveness and precision in shoulder arthroplasty	*Lech*
12:16	My experience with augmented reality navigation	*Agneskirchner*
12:24	Precision driven technology for RSA	*Akgün*
12:32	Critical analysis of intraoperative navigation in RSA	*Barco*
12:40	Robotics – Hype or revolution?	*Kassam*
12:48	Emerging concepts in surgical navigation – Where are we heading?	*Iannotti*
12:56	Discussion	

Session 9
13:00 - 14:00

KEYNOTE

PAVILLON

How to Manage Complications in Shoulder Arthroplasty in 2027

Routman | Verborgt

13:00	Off-the shelf augmented baseplates in revision RSA	*Sanchez-Sotelo*
13:08	Video-Demo: MyImplant: When off-the-shelf options cannot make it	*Moroder*
13:16	My experience with custom-made designs for complex glenoid bone deficiency	*Bale*
13:24	Management of complications after stemless RSA	*Alta*
13:32	Video-Demo: ORIF of scapular spine fractures	*Routman*
13:40	Reconstruction of the proximal humerus: Bone or metal?	*Schoch*
13:48	Cutibacterium acnes: How to avoid and how to diagnose?	*Skaliczki*
13:56	Periprosthetic infection: Do we have a consensus for treatment?	*Ricchetti*

14:00 - 14:01

END OF MEETING

14:30 - 15:35

POST-COURSE - LECTURES

BELLEVUE

14:30	Introduction	*Scheibel*
14:35	Pagea Proximal Humeral Plate and/or T2 Alpha Humeral Nail	
14:50	Cementless Technique for Humeral Fracture RSA	
15:05	tbd	
15:20	tbd	

15:35 - 17:30

POST-COURSE - ROTATIONS

BELLEVUE

15:35	Rotation 1
16:00	Changeover Break
16:05	Rotation 2
16:30	Changeover Break
16:35	Rotation 3
17:00	Changeover Break
17:05	Rotation 4

NOTES

Meeting Dates
March 31- April 03, 2027

Venue
InterContinental Hotel
Berlin Budapester Strasse 2
10787 Berlin
Germany

Official Language
English, simultaneous translation will not be provided

Scientific Coordinator
Univ.-Prof. Dr. med. Markus Scheibel
Department of Orthopedics and Traumatology
Campus Benjamin Franklin
Charité – Universitätsmedizin Berlin, Germany

Organizer and Registration
Congress Compact 2C GmbH
Gina Isemann
Joachimsthaler Strasse 31-32
10719 Berlin
Germany
Phone +49 30 88727370
E-Mail bisc@congress-compact.de

Ethical Medtech Evaluation
An assessment by Ethical MedTech Europe has been requested.
EMT-26-10510

Certification
The certification of the course will be inquired at the Berlin Medical Association.

The certification will be requested at the International Medical Association.

On-Site Registration and Badge Pick-up
Badge pick-up is scheduled to open on Wednesday, March 31, 2027 afternoon. Participants will be able to pay for their on-site registration in Euro by cash, EC card or by credit card (American Express, MasterCard and Visa).

Registration will be open every day at the InterContinental Hotel Berlin during the following hours:

- Wednesday, March 31, 2027 14:00-22:00
- Thursday, April 01, 2027 07:00-19:00
- Friday, April 02, 2027 07:00-19:00
- Saturday, April 03, 2027 08:00-14:00

Exhibition Area
Participants must be registered for the meeting in order to access to the exhibition area. The exhibition area will be open as follows:

- Thursday, April 01, 2027 07:00-19:00
- Friday, April 02, 2027 07:00-19:00

■ Saturday, April 03, 2027 08:00-14:00

The Berlin International Shoulder Course 2027 is coming up soon. Join us in Berlin for an exciting program featuring the latest developments in shoulder surgery, expert lectures, and valuable opportunities for discussion and exchange.

Secure your spot early and take advantage of the early registration rates. We also look forward to welcoming you to our social events and creating plenty of opportunities to connect with colleagues.

Find all details below and register now.

Participation Fees

	Early Registration (until Dec 31, 2026)	Regular Registration (from Jan 1, 2027)
Pre-Course (March 31, 2027)	175 €	200 €
Berlin International Shoulder Course (April 01–03, 2027)	750 €	950 €
Ultrasound Workshop (April 03, 2027)	200 €	250 €
Post-Course Sawbone-Workshop (April 03, 2027)	250 €	300 €

Scan the QR-Code to register and secure your spot.

Terms of Cancellation

Cancellations must be submitted in writing.

In the event of cancellation up to two months prior to the event, a cancellation fee of €20 will be retained. For cancellations received up to one month prior to the event, 50% of the total amount paid will be refunded, subject to a minimum cancellation fee of €50.

For cancellations received less than one month prior to the event, or in the event of non-attendance without prior written cancellation, no refund will be granted and 100% of the total amount will be charged.

Please note that registration fees and any other payments made in connection with the event are non-refundable in the event that a visa application is denied, delayed, or otherwise not approved. Participants are therefore advised to ensure that they obtain the necessary visa prior to making any non-refundable travel or event-related arrangements.

Legal and Organizational Information

The organizer reserves the right to make changes to the scientific program, speakers, schedule, venue, or other organizational arrangements if necessary. Participants will be informed of any significant changes as soon as possible.

Participation in the event is subject to the applicable registration, payment, and cancellation terms. Registration is considered binding upon receipt of the registration and, where applicable, payment of the participation fee.

Participants are responsible for arranging their own travel, accommodation, health and travel insurance, and any necessary entry or visa requirements. The organizer accepts no responsibility for costs arising from visa refusal, visa delays, or the inability of a participant to attend the event for reasons beyond the organizer's control.

By registering for the event, participants acknowledge and accept the applicable terms and conditions, including the cancellation policy and relevant data protection provisions.

Photography, video recording, and other media activities may take place during the event. By attending, participants acknowledge that photographs or recordings may be made for documentation and communication purposes, subject to applicable data protection regulations.

The organizer reserves the right to cancel or modify the event in exceptional circumstances. In such cases, participants will be informed as soon as reasonably possible. Further details and applicable provisions are set out in the registration and cancellation terms.

Lead Scanning and Data Sharing

During the event, exhibitors and sponsoring companies may use lead-scanning systems to record participant data for the purpose of follow-up communication.

Participants may choose to have their badge scanned by an exhibitor or sponsoring company. By requesting or consenting to a badge scan, the participant agrees that the data made available through the scanning system may be transmitted to the respective company and used by that company for the purpose of contacting the participant and providing relevant information about its products, services, or activities.

Participation in lead scanning is voluntary. Participants are not required to have their badge scanned and may decline to share their data with exhibitors or sponsoring companies.

The processing of personal data by exhibitors and sponsoring companies is subject to the applicable data protection regulations and the respective company's privacy policy.

Accommodation at Special Rates in the Conference Hotel

Take advantage of the convenient opportunity to stay directly at the conference hotel and benefit from our exclusive discounted rates available for conference participants.

By booking your room on site, you can enjoy short distances, maximum comfort, and a relaxed stay throughout the event. Start your day refreshed and make the most of your evening in a pleasant atmosphere – without the need for additional travel arrangements.

The special room rates are available exclusively for attendees of the conference.
We recommend booking your accommodation early, as the room allocation is limited.

We look forward to welcoming you to the conference hotel and ensuring a comfortable and enjoyable stay.

The following special rates are available for conference participants:

Classic Single Room	Classic Double Room
190 € per night	215 € per night

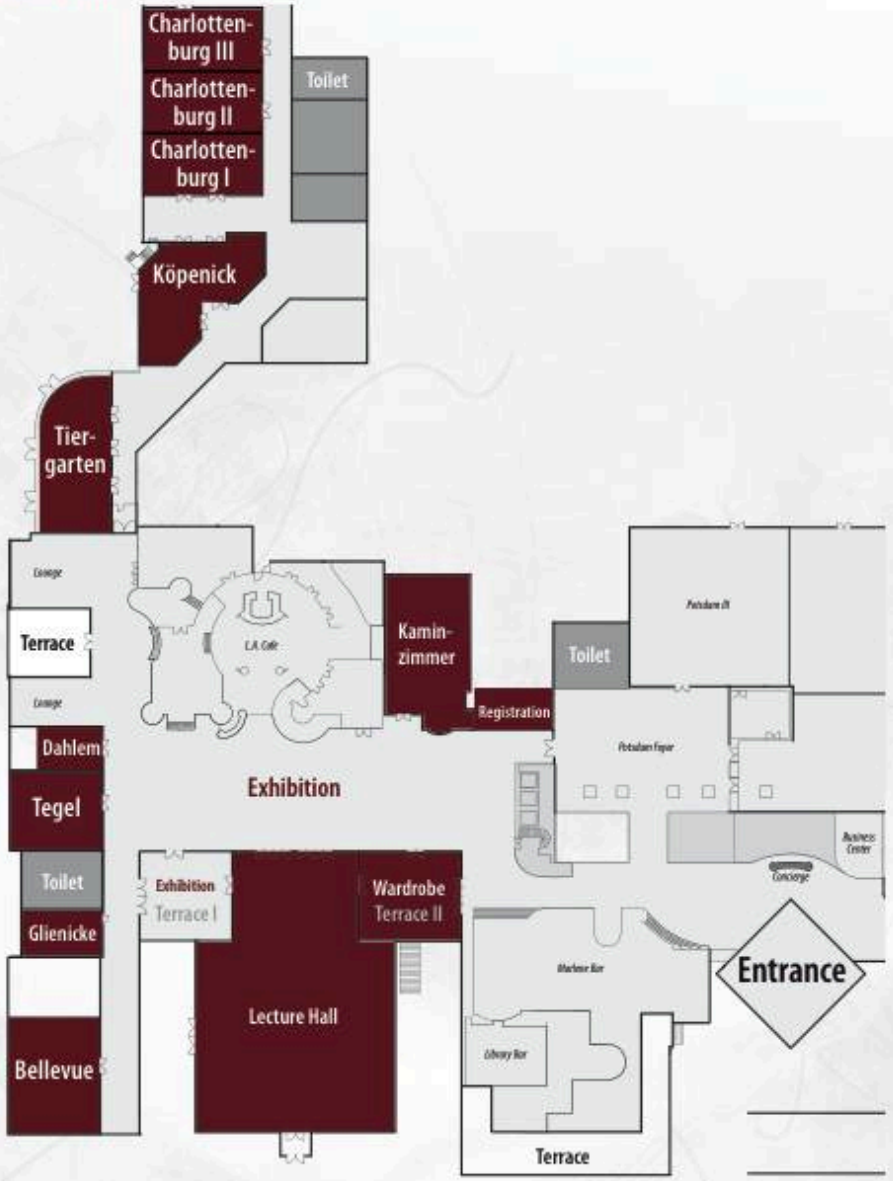

All rates include breakfast and applicable VAT.

Dillon Curved Glenoid Retractors
Designed by Mark Dillon, MD
Designed to help bring the retractor away from the glenoid in reverse TSA procedures, helping allow for easier reaming of the glenoid, while the surgeon can also use the curved design at the end to help guide the glenosphere onto the baseplate, making insertion significantly easier
Standard #4278
Narrow #4278-N
New!
Large Deltoid Retractor
Designed for lateral retraction of the deltoid during arthroplasty or open shoulder procedures, the large size with deeper and wider ends of different depths is helpful for large and muscular patients
#1671
Glenoid Access Retractor–Narrow
Design modification of an original design developed in collaboration with Mayo Clinic.
Designed to help expose the posterior aspect of the glenoid
#1261-N
Dingo Modified Humeral Head Retractor
Designed to help lever and displace the proximal humerus posteriorly
#2438

INNOMED

By Car

Guests arriving by car can use the hotel's on-site parking garage with valet parking service available (charges apply). The entrance to the parking garage is located directly in front of the hotel.

From Berlin Central Station (Hauptbdhnhof)

Take any S-Bahn line heading towards Zoologischer Garten (approximately 6 minutes). From Zoologischer Garten station, the hotel is around a 10-minute walk or a short bus or taxi ride.

By Taxi

A taxi from Berlin Central Station takes approximately 10–15 minutes, depending on traffic.

By Public Transport

The nearest public transport hub is Zoologischer Garten, served by:

- U-Bahn (subway)
- S-Bahn (urban rail)
- Regional trains
- Numerous bus routes

The hotel is also conveniently located close to the Budapester Straße bus stop, providing easy access to Berlin's main attractions and business districts

From Berlin Brandenburg Airport (BER)

Berlin Brandenburg Airport (BER) is approximately 25 km (16 miles) from the hotel.

By Airport Express & Public Transport (recommended)

Take the Airport Express (FEX) or a regional train to Berlin Hauptbdhnhof (Central Station) or Potsdamer Platz. From there, continue by S-Bahn, U-Bahn or taxi to Zoologischer Garten station. The hotel is about a 10-minute walk or a short taxi ride from the station. Public transport operates frequently throughout the day.

By Taxi

Taxis are available outside all terminals. The journey to the hotel takes approximately 30–40 minutes, depending on traffic.
